BACKEND DEVELOPER | AZURE AI ENGINEER ASSOCIATE | DATA ANALYST JR

I am a Computer Engineering Technician in training, with two years of experience in developing IT solutions, specializing in backend development with NestJS, TypeScript, and DevOps. I have expertise in technologies such as Azure and data analysis with SQL, PostgreSQL, Python, Django and deployment apps. I excel at fostering collaborative relationships and take a self-taught approach to acquiring practical skills that add value to projects.

KEY COMPETENCIES

Process improvement | Data-driven strategic | Proactive and self-motivated | Strong interpersonal skills

KEY TECH COMPETENCIES

Data Analyst | SQL | Python | Typescript | PostgreSQL | NestJS | Azure AI Services | DevOps | CI/CD

PROFESSIONAL EXPERIENCE

MABRICK

03/2024 - 06/2024

Intern Web Operations Developer

Development of the company's new website from scratch using Astro Framework, with continuous deployment and continuous integration as part of the implementation of DevOps methodologies to streamline development and operations. Project management and documentation.

KATA SOFTWARE ES

09/2023 - 06/2024

Developer Junior Trainee

My activities focused on the administration and querying of relational databases on different servers, creating SQL reports and reporting services, stored procedures, database modeling, and pre-training data labeling for AI models using Azure.

C.E.L - Comisión Ejecutiva del Río Lempa

01/2023 - 04/2023

Intern PL/SQL Oracle Database Developer

During my professional internship, I performed tasks involving Oracle database management with SQL, data modeling, and PL/SQL queries. Additionally, I worked on integrating Google Workspace and implementing artificial intelligence solutions to enhance workplace productivity at an enterprise level.
